### TECHNOLOGY AND INTELLECTUAL PROPERTY ASSIGNMENT AGREEMENT

THIS TECHNOLOGY AND INTELLECTUAL PROPERTY ASSIGNMENT AGREEMENT (the "Agreement") is made and entered into as of 11-21-2025 (the "Effective Date"), by and between Alden Global Inc., a Delaware corporation (the "Company"), and [Full Legal Name of Developer] ("Assignor").

#### RECITALS

WHEREAS, Assignor has created, developed, or contributed to, or may in the future create, develop, or contribute to, certain technology, software, code, designs, and other intellectual property related to the Company's business (collectively, the "Technology");

WHEREAS, the parties desire to ensure that the Company has full, exclusive, and unencumbered ownership of such Technology;

NOW, THEREFORE, in consideration of the mutual promises contained herein and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties agree as follows:

#### 1. CONSIDERATION

The parties acknowledge and agree that the consideration for the assignment of rights set forth in this Agreement includes a cash payment of \$10.00 (Ten U.S. Dollars) paid by the Company to Assignor, the receipt of which Assignor hereby acknowledges. Assignor agrees that this consideration is sufficient to support the obligations and assignments set forth herein, independent of any other compensation, equity, or employment relationship between the parties.

#### 2. ASSIGNMENT OF INTELLECTUAL PROPERTY

2.1 Assignment. Assignor hereby irrevocably assigns, transfers, and conveys to the Company, its successors, and assigns, all of Assignor's right, title, and interest in and to any and all ideas, inventions, original works of authorship, developments, concepts, improvements, trade secrets, software, code, documentation, and related intellectual property rights (collectively, "Inventions") that Assignor creates, develops, or conceives, either alone or with others, that:

(a) Relate to the Company's current or anticipated business, products, or research and development;

(b) Result from or are suggested by work performed by Assignor for the Company; or

(c) Are developed using the Company's equipment, supplies, facilities, or trade secrets.

2.2 Work Made for Hire; Moral Rights. To the extent any Inventions qualify as "works made for hire" under applicable law, they shall be deemed works made for hire and the Company shall be deemed the author and owner of such Inventions from the moment of creation. To the extent any Inventions do not qualify as works made for hire, Assignor's rights in such Inventions are assigned to the Company under Section 2.1. To the extent allowed by law, Section 2.1 includes all rights of paternity, integrity, disclosure, and withdrawal and any other rights that may be known as "moral rights." To the extent any such rights cannot be assigned under applicable law, Assignor hereby waives such rights and consents to any action of the Company that would violate such rights in the absence of such consent.

#### 3. CALIFORNIA LABOR CODE SECTION 2870 NOTICE

3.1 Limitation on Assignment. In accordance with Section 2870 of the California Labor Code, the assignment in Section 2.1 does not apply to an Invention that Assignor developed entirely on Assignor's own time without using the Company's equipment, supplies, facilities, or trade secret information, except for those Inventions that either:

(a) Relate at the time of conception or reduction to practice of the invention to the Company's business, or actual or demonstrably anticipated research or development of the Company; or

(b) Result from any work performed by Assignor for the Company.

Assignor acknowledges receipt of the written notification of the provisions of Section 2870 of the California Labor Code, a copy of which is attached hereto as Exhibit A.

#### 4. NO FURTHER ACTION; POWER OF ATTORNEY

4.1 No Further Action Required. Assignor acknowledges and agrees that the assignments set forth

in Section 2 are effective immediately upon creation of the applicable Inventions and do not require any further action by Assignor for the Company to own all right, title, and interest in and to the Inventions as between Assignor and the Company.

4.2 Power of Attorney. To the extent that, in the future, any additional documents or actions are required to confirm, register, or enforce the Company's ownership of or rights in the Inventions, Assignor hereby irrevocably appoints the Company and its duly authorized officers and agents as Assignor's attorney-in-fact, with full power of substitution and resubstitution, solely to execute and deliver such documents and take such actions on Assignor's behalf as may be reasonably necessary to carry out the purposes of this Agreement. This power of attorney is coupled with an interest and shall be irrevocable.

## 5. REPRESENTATIONS AND WARRANTIES

Assignor represents and warrants that:

(a) Original Work: The Inventions are Assignor's original work and do not infringe the intellectual property or privacy rights of any third party.

(b) No Third-Party Code: Assignor has not incorporated and will not incorporate into the Inventions any third-party code, open source software, or other materials that would violate the proprietary rights of a third party or impose license restrictions on the Company (e.g., "copyleft" or GPL licenses), without the Company's prior written consent.

(c) Right to Assign: Assignor has the full right and authority to enter into this Agreement and assign the rights conveyed herein, and is not bound by any prior agreement (e.g., with a university or former employer) that would conflict with this Agreement.

## 6. PRIOR INVENTIONS

Assignor represents that if there are any Inventions that Assignor made prior to the commencement of this relationship with the Company that Assignor wishes to exclude from this Agreement, they are listed in Exhibit B (Prior Inventions). If no list is attached, Assignor represents that no such Prior Inventions exist.

## 7. GENERAL PROVISIONS

7.1 Governing Law. This Agreement shall be governed by and construed in accordance with the laws of the State of Delaware, without regard to its conflict of law principles, provided that the limitations of California Labor Code Section 2870 shall apply to Assignor if Assignor resides in California.

7.2 Severability. If any provision of this Agreement is found to be illegal or unenforceable, the other provisions shall remain effective and enforceable to the greatest extent permitted by law.

7.3 Entire Agreement. This Agreement constitutes the entire agreement between the parties regarding the subject matter hereof and supersedes all prior or contemporaneous oral or written agreements concerning such subject matter.

IN WITNESS WHEREOF, the parties have executed this Agreement as of the date first written above.

## EXHIBIT A

NOTIFICATION OF CALIFORNIA LABOR CODE SECTION 2870

CALIFORNIA LABOR CODE § 2870. APPLICATION OF PROVISION PROVIDING THAT

EMPLOYEE SHALL ASSIGN OR OFFER TO ASSIGN RIGHTS IN INVENTION TO EMPLOYER.

(a) Any provision in an employment agreement which provides that an employee shall assign, or offer to assign, any of his or her rights in an invention to his or her employer shall not apply to an invention that the employee developed entirely on his or her own time without using the employer's equipment, supplies, facilities, or trade secret information except for those inventions that either:

(1) Relate at the time of conception or reduction to practice of the invention to the employer's business, or actual or demonstrably anticipated research or development of the employer; or

(2) Result from any work performed by the employee for the employer.

(b) To the extent a provision in an employment agreement purports to require an employee to assign an invention otherwise excluded from being required to be assigned under subdivision (a), the provision is against the public policy of this state and is unenforceable.
